NOTICE ON SCHOOL CLOSURE DUE TO HAZE AND ONLINE LEARNING ARRANGEMENTS

Date of Notice: 8 October 2026

To: All Staff, Students, and Parents/Guardians of the Kindergarten, Primary and Secondary School Sections

Subject:

School Closure Due to Haze on Friday, 9 October 2026

Dear Staff, Students, and Parents/Guardians,

In accordance with the school closure directive issued by the Selangor State Education Department due to the current haze situation, Chinese Taipei School (Kuala Lumpur) will suspend all physical classes on **Friday, 9 October 2026, for one day**. Online learning arrangements will be implemented to safeguard the health and safety of our students and staff.

Details

1. In compliance with the directive issued by the Selangor State Education Department, all physical classes will be suspended on Friday, 9 October 2026. Students are required to remain at home and should not report to school.
2. Online learning will be conducted during the school closure. Class schedules, learning materials, and online meeting links will be communicated separately by the respective class teachers or subject teachers.
3. For Kindergarten students, online activities will primarily focus on maintaining interaction and communication between teachers and children. Parents who are unable to arrange for their children to participate due to family commitments or technical limitations need not worry, as teachers will provide the necessary learning support upon the resumption of physical classes.
4. Parents and guardians are kindly requested to make the necessary childcare arrangements and encourage their children to minimise outdoor activities while monitoring their health and the surrounding air quality.
5. The School will continue to monitor the haze situation and follow the latest instructions from the relevant authorities. Further updates regarding the resumption of physical classes or any changes to school arrangements will be announced through the School's official website and class communication groups.

We understand that this temporary closure may cause inconvenience, particularly to working parents who need to make alternative childcare arrangements. However, this measure is necessary to comply with the directive issued by the relevant authorities.

We sincerely appreciate the understanding and cooperation of all staff, students, and parents/guardians as we work together to safeguard the health and well-being of our school community.
